WORK EXPERIENCE

Pearson VUE - Software Engineering Intern

September 2020 - current

Bloomington, MN

- Used Java, JavaFX, and Swing to develop an exam delivery desktop application used by over 20,000 daily candidates
- Gathered user requirements, and built and maintained code for an internal tool, saving employees 30 monthly hours in labor
- Worked within agile team to prioritize and scope feature requests, placing biggest impacts at top
- Collaborated with 30+ colleagues in local and remote locations
- Received, prioritized, and resolved production level defects, resulting in increased customer satisfaction

University of St. Thomas - Event Support Technician

April 2019 - May 2020

St. Paul, MN

- Was responsible for assisting students and faculty with any event related technology including PowerPoint, microphones, speakers, including sound mixing using a high-end sound mixer
- Trained and supervised 5 other event support technicians

Chick-fil-A - Supervisor

Oct 2016 - March 2019

West St. Paul, MN

- Managed a team of 10-12 each shift to provide high-quality service to hundreds of daily guests
- Was promoted to a supervisor after four months of starting
- Raised cleanliness ratings 5% over a period of 3 months
